

BERETTA

BERETTA knives are produced by one of the finest gun companies in the world. The quality shown in their line of hunting knives certainly matches that of their firearms. These handsome hunters are crafted of superior quality 440C stainless steel and you have two handle materials to choose from—cocobolo wood and black linen micarta. Available in plain edge only, each knife comes with a sturdy black leather sheath.

A.
3 3/8" upswept blade. Suggested retail \$78.00.

MODEL #BR-1

MODEL #BR-4
YOUR CLOSE-OUT PRICE \$44.95

Blade Steel 440C	Weight 3.6 oz.
Overall Length 6 5/8"	Handle	Micarta or Cocobolo
Edge Length 2 1/8"	Sheath Leather
Blade Thickness 5/32"	Made In Japan

TAIYO

Another great Ironstone exclusive and a last chance to buy. Not only have we bought the remaining inventory from Spyderco, but there will never be any more produced. Taiyo gave up making its own line of fine knives several years ago to concentrate its efforts on production for a large American company. We're sure you'll agree that the fit and finish is excellent, the construction is solid, and the price is fantastic.

The **BIRD AND TROUT** knives use AUS-8 stainless steel which takes an incredible edge. This sophisticated design reveals a tapered full tang for light weight and balance. The blade is flat ground and given a shiny mirror finish. Your choice of handle materials – micarta or Corian. Plain edge only. Leather sheath included.

MICARTA MODEL Suggested retail \$79.95.

MODEL #TY-BTM
YOUR CLOSE-OUT PRICE \$39.95

PACIFIC CUTLERY CORPORATION

This could be your last chance to buy a piece of knife history. About 10 years ago these pieces were made by and carried the name of Pacific Cutlery Corporation. Although no longer in business, the quality found in these fine knives would serve as a good introduction to the unmatched workmanship now coming out of Benchmade Knife Company, Inc. with the same staff as Pacific Cutlery Corp. Great buy for collectors, and a great buy for dependable, heavy duty use.

KLOTZLI

Klotzli knives have been made in Switzerland for over 100 years. The pride in craftsmanship continues through the generations—excellent blade steel, impeccable fit and finish, hand ground and individually numbered. Plain and simple—our close-out special delivers hand-made quality at an unbelievable price.

A.
The strong and practical boot knife is constructed from 440C stainless steel with a full tang. The handle is wrapped with a nylon cord which can be removed if necessary. The blade is bead blasted to provide a non-reflective finish. A functional leather boot sheath with metal clip is included. Suggested retail \$106.67.

Edge Length	2 5/8"	Sheath	Leather
Blade Thickness	1/10"	Made In	USA

BOB T. JR

Designed by well-known master knifemaker Robert Terzuola. This is the original aluminum-handled version (which has since been discontinued and replaced by a G-10 handled version) featuring high-lubricity nylon bushings for glassy smooth one-handed opening and strong stainless Linerlock® closes with one hand as well. Made in the USA. Available with a PlainEdge or 50/50 combination PlainEdge/SpyderEdge. Also available left-handed. Suggested retail \$124.95.

Edge Length	2 5/8"	Sheath	None
Blade Thickness	1/8"	Made In	USA

WHITE HANDLE RESCUE

This version of the Rescue is certainly a rare species. It was never put into production by Spyderco and only a few hundred were even manufactured. Designed for safety, the sheepfoot blade is popular with emergency workers who need to cut seatbelts and pant legs without the risk of cutting the patient. The long, straight blade is also ideal for cutting rope. Suggested retail \$69.95.

MODEL #SP-C14WH

YOUR CLOSE-OUT PRICE \$39.95

Blade Steel	G2	Weight	2.72 oz.
Overall Length	8 1/2"	Handle	Zytel
Edge Length	3 3/8"	Sheath	None
Blade Thickness	1/8"	Made In	Japan

MINI PARING KNIFE

This 2 5/8" paring knife was designed for in-hand cutting chores as well as gourmet decorating. In addition, the paring knife has become popular with wood carvers because it is petite and strong. At this price you can afford to stock the kitchen and the woodshop. Tough MBS-26 stainless steel has outstanding edge retention. Blade is PlainEdge and 3/8" wide. Black handle only. Suggested retail \$23.95.

Spyderco's NUMBERED COLLECTOR'S KNIVES

Spyderco numbers the first 101 knives off the line to be reserved for collectors who own each number. Some variations of a particular model are not purchased by the collector and Ironstone had the opportunity to purchase these from Spyderco. This gives our customers the chance to own a one-of-a-kind collector's piece. Hurry - quantities are extremely limited.

G. SAKAI

G. SAKAI ARCHISTRIAL SERIES A blade does not have to be large to be highly effective. The emphasis on these high quality pieces is on control rather than size. Special design features are centered around the sweet spot on each blade. Ergonomic design also allows for five different grip positions to enable effortless cutting. Blade steels and handle materials were matched to the purpose of each knife. From a selection of fixed blades and folders as well as plain or serrated edges you'll find out why G. Sakai is famous for razor sharp edges.

SMITH'S

SMITH'S MULTI-HONE

Putting a good edge on a knife could be considered an art. If you enjoy the artistry of sharpness, this Multi-Hone is an essential tool. Four grades of 8" x 1 5/8" x 1/2" stones: The **coarse** (dark gray) silicon carbide stone is aggressive and will remove steel quickly. The **medium** (grayish) natural Arkansas stone can be used for quick general sharpening. **Two fine** grit finishing stones to choose from—the white is a natural Arkansas stone for final finish and polish, and the orange aluminum oxide stone is for a smooth cutting edge. Angle guides are built into the Multi-Hone and the plastic base provides an oil bath for convenient lubrication. Non-skid feet keep the Multi-Hone stable during sharpening. Suggested retail \$60.00.
